Chemistry SAT II Enrichment / AP

Edison Branch (in the Tano Mall)
1199 Amboy Ave., Edison, NJ 08837
mlc.edisonbranch@gmail.com
Tel: 732-650-0099

Schedule

Classes are every Saturday (test date: AP 5/1/17, SAT II 6/3/17)

Date	Subject	Time	Hours / Sessions
1/7/17-5/27/17	SAT II & Enrichment	Saturday 11:00-12:30pm	1.5Hr * 20 sessions
10/8/16-4/29/17	AP Chemistry	Saturday 10:00-11:30am	1.5Hr * 27 sessions

SAT Subject Tests are required or recommended by most public and private and Ivy League colleges. They enhance student's college admission credentials. MLC SAT II Courses compensate the deficiency and coverage of school curriculum.

This course will focus on the following:

- ✓ Enriches and enhances topics covered at school (required for SAT II)
- ✓ Teaches SAT II topics that will not be covered at school (SAT II Test covers more or different topics than school)
- ✓ Practices and trains for SAT II test

Course method:

- ✓ Assembling review material from a huge variety of sources and customizing handouts for each class. This enables the students to review all necessary topics for each and every test.
- ✓ In each class, study sheets are used to reinforce the important concepts.
- ✓ After each class homework study sheets are used to reinforce the topics covered that day.
- ✓ Reading assignments are also given so that the student can prepare for the next class.

These AP courses are designed for students who are currently enrolled in honor/AP

science courses at their local high schools. AP provides willing and academically prepared students with the opportunity to earn college credit and/or advanced placement. Taking AP courses also demonstrate to the college admission officers that the students have sought out the most rigorous course work available to them. The course will help students prepare for national AP test in May and also SAT II test in June.

INSTRUCTOR:

Dr. Kimmel is a College Board (the organization administers AP/SAT exams) consultant for teaching the AP Chemistry Teacher's Workshop on how to improve AP Chemistry teaching. Dr. Kimmel graduated from Columbia University and has enjoyed 42 years of experience teaching at the high school level, including SAT II and AP, and 24 years of experience teaching college level chemistry courses. Dr. Kimmel taught chemistry as a professor at Rutgers University. Dr. Kimmel has the skills necessary to meet the challenges of the class and satisfy the specific needs of the students of varying academic levels. Dr. Kimmel excels at helping students reach high/full scores after taking his SAT II and AP preparation classes.

Ms. Kerry Pross is currently working at West Windsor Plainsboro High School North. She has been teaching chemistry for 17 years, all levels. Ms. Pross has been teaching AP chemistry for the last nine years and she is also an AP chemistry reader. In addition to being an AP chemistry teacher she is also the advisor for her schools Science Bowl team and co advisor of the Science Olympiad team. She is proud to say their school are two time state champions and national competitors
